

Year 3 celebration newsletter

Well, what a busy time we have had this half term! In maths we have been doing multiplication and division and also length. In English, we have been reading 'Sheep Pig' and have written some lovely letters pretending to be the characters from the story. We have also been writing letters to Tesco to ask them if we can take part in their Bags of Help scheme.

In addition, we have created and typed up a healthy recipe book, using the IPADS, which will be on sale very soon for you and your families. This has been created by the children to raise money for a school in Australia that has been burnt down in the recent bush fires. The compassion that the children have shown during this time has been lovely to see.

As our topic this term is 'Farm to Fork', we have been spending lots of time in our forest school area and a couple of weeks ago, the children were lucky enough to experience a real camp fire and toast some marshmallows! We are planning to spend lots more time in their doing more team building and collaborative learning tasks with the children, whilst also learning about how plants grow and beginning to start growing some of our own vegetables to cook and eat.

Many of our Year 3 children were also lucky enough to take part in Peace Proms 2020. This was a fantastic day and a wonderful opportunity for our children to experience large-scale performance. Those who did take part thoroughly enjoyed themselves! This week, we have also had the Bikeright people in to talk about the forces we use when riding a bike and how to help look after our bikes more carefully!!
