

Year 4 Celebration Newsletter: Spring 1 2020

We began our brand-new topic on the changes to New Brighton since Victorian times. Well done to the children for bringing in lovely research work on landmarks or features of New Brighton. There was a wide variety of presentation, including models, posters, books, leaflets and powerpoint presentations.

After doing science work on electrical circuits, we made model lighthouses (linked to our topic on New Brighton) and fitted a working light. We certainly ended up with all sizes and shapes!

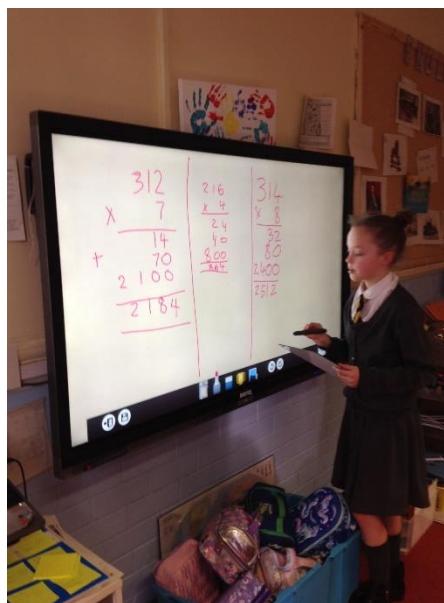

In RE we have been studying The Kingdom of God. A challenging subject! Jesus often spoke about God's Kingdom in his parables. We have studied some of these, sometimes doing drama work to bring the stories alive. These were scenes from 'The parable of the great feast'.

This term we have been learning the written methods for multiplication and division. This has been quite a challenge and we have begun to use these methods in problem solving.

Children have used apparatus to support them in this work, as you can see in these pictures:

A few children took part in the futsal tournament at Tranmere Rovers. We came second.

Lots of our Year 4 children took part in the Peace Proms concert in January at M&S Bank Arena in Liverpool. This was as a part of a choir of 2500. All our children must be complimented on how well they represented their school. Well done!
