

Year 5 Spring 1 Celebration newsletter

Year 5 have had a fun packed half term. They have been learning all about the Tudors and have produced some amazing independent pieces of homework. Well done children, and thank-you to all of the parents who have supported their children to produce such excellent creations.

The children have been using the iPads to deepen their learning about the Tudor times and William Shakespeare and have enjoyed creating a slideshow to showcase their learning. They have Google Earth to investigate further.

In writing, the children have been learning about the play Macbeth and have written excellent descriptions of the witches from the story. They have also written a letter from Macbeth to Lady Macbeth and we thoroughly enjoyed sharing this with our parents in the open lesson this week. Thanks you to all the parents that were able to join us!

The children had lots of fun during Science week learning about forces. They used Newton metres to work out the force of objects.

The children also took part in a session led by Woodchurch High School, teaching the children all about the PH of liquid. They enjoyed being scientists and making a PH rainbow!

Finally, we are thoroughly proud of the children that took part in Peace Proms! They all sang their hearts out and represented the school beautifully. What an amazing experience to sing with a choir of 2500 children from hundreds of different schools!

Thank you to all of the parents of classes 11 and 12 for your continued support this half term. Enjoy your time with the children and we will see you on the 24th February for the start of Spring 2.

Don't forget our 'Team time' on Thursday 5th March after you drop the children off at school. Time for a 'brew' and to look at the children's books to share their learning. When we work together to be on your child's team, the most progress can be seen!
